

	<b>Business Management System ~ Policy</b>	DOC: BMS 02
Revision 10	Authorised by: C Whitehouse	Date: 29.09.17

## VSMPO Tirus Ltd Business Management System Policy (Quality, Environmental and Health & Safety).

VSMPO Tirus Ltd will communicate this integrated Business Management System Policy covering Quality, Environmental and Health and Safety to all relevant interested parties when there are significant changes to this policy that include a change of authorisation, on induction for new employees, when re-issued, during training and any other method of change that may also affect the BMS by means of website, customer communications and internal employee meetings.

This policy sets a frame work in which we aim to achieve a continuous life cycle by investigating risks and opportunities, changes to planned arrangements, internal and external audit results, customer feedback, our key processes and their associated controls and any other findings that affect to our business management systems targets and objectives, the context of our organisation and our strategic direction.

With the use of knowledge, technology and other resources, to secure our future development and growth in the aerospace, defense and manufacturing engineering industries that require our products and services we will commit to, communicating and implementing a maintained Business Management System to manage the risks and opportunities associated with our staff, equipment, premises and operational activities that may affect interested parties and our supply of products and services in line with our strategic direction and the context of our organisation.

VSMPO Tirus Ltd will commit through its business management system to minimize or eliminate any unplanned events e.g. non-conformance, accidents, injuries or ill-health, pollution and data loss or corruption through pro-active risk management, monitoring, inspection and auditing by ensuring the availability of resources, through continuous improvement, risk management and communication.

VSMPO Tirus Ltd will ensure that leadership commitment and effective management are allocated, understood, monitored and fulfilled to support all aspects of the business management system, its interested parties, our strategic direction, the context of our organisation, products and services, targets and objectives and this policy.

VSMPO Tirus Ltd will provide sufficient resources to meet the requirements of all current applicable legislation and aim to achieve the highest standards of best practice, against which compliance will be checked regularly.

VSMPO Tirus will have the capability to ensure its business management system is independently audited by an accredited and competent external organisation for recognised international standards and other applicable legal and statutory requirements on a regular basis and will retain access to reliable advice and assistance through the support of competent external sources.
